Horticultural expert Vincent Simeone helps you plan your green garden in this practical, holistic guide. With detailed, strategic timelines for both short-term and long-term gardening techniques, Grow More with Less lets you put your best foot forward in creating an efficient, sustainable home landscape. From composting and mulching to planting trees, author Vincent Simeone covers all the eco-friendly essentials in one straightforward handbook. Simeone makes the what, how, and why of sustainable gardening unmistakably clear: why we should plant for the long-term, how to make the best plant selections possible, how to manage invasive species, how to make the most of your lawn (regardless of its size), the importance of IPM (integrated pest management) in fighting insects and pests, how to conserve water with proper irrigation, installing rain barrels and cisterns, and more. Even when the solution is to do nothing - for instance, leaving some parts of a lawn un-mowed in order to save time and money while attracting local wildlife - Grow More with Less enables you to confidently make the call. With effective, time-proven recommendations like these, field-tested in a large botanical garden and adapted for home use by Vincent Simeone, Grow More with Less is your complete step-by-step personal roadmap for green gardening.

"Hubert (The Granny Square Book) returns with a second dose of granny squares in this colorful collection of crochet motifs inspired by nature. Many of the projects require intermediate to advanced crochet skills, and each design includes both written and charted directions as well as a color photograph of the finished square. An assortment of 15 projects incorporating the squares in the book completes the package. Some feature interesting and unexpected uses of the motifs, such as the tasseled ski hat (the squares make up the ear flaps) and the childrens blocks and coordinating hassock. VERDICT Granny squares are the building blocks of crochet, and this work contains a number of pretty designs that are ready to mix and match." - Library Journal
