Lori Dennis : Green Interior Design before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Interior Design:

3 of 3 people found the following review helpful. Very highly recommended for anyone who cares about style and the environmentBy Midwest Book ReviewGREEN INTERIOR DESIGN collects under one cover the basic details for anyone wishing to create a green, sustainable interior. It's not directed to the technical architect so much as the general homeowner, so offers extensive resources, vendors who practice green behaviors, and keys to reducing waste and

conservation. Homeowners will find this packed with important conservation details. 3 of 3 people found the following review helpful. Highly recommend this book! By Jackie Freund This book was awesome! I have young children and decided I really wanted to create a green living space for us. The book was really easy to understand and implement. I loved all the photographs too. It's a must read for anyone wanting to create a green home environment. 3 of 4 people found the following review helpful. Highly recommend! By Matthew Pressler Being from Oregon, we are interested in all things that promote socially responsible living. Lori Dennis embraces this ideal wonderfully in her new book. I highly recommend it to anyone with a passion for design and an awareness of our impact on the environment.

Award-winning designer and author Lori Dennis proves interior design can be both stylish and environmentally sustainable in this easy-to-use, entertaining guide. Dennis discusses every aspect of interior design—furniture and accessories, window treatments, fabrics, surface materials, appliances, plants, and more—from a green perspective in terms of reducing waste and pollution and turning a home into a healthy, comfortable environment. Readers will learn how to: - use sustainable materials like bamboo, cork, and recycled glass to enhance interiors - search thrift shops and antique stores for vintage hidden treasures - find the best vendors for purchasing green products - use plants and locally cut flowers to improve indoor air quality and brighten up rooms - replace lawns with indigenous plants and edible gardens - keep rooms clean with effective and nontoxic products - use energy efficient lighting and maximize natural light - apply for different types of green certification. Packed with over 100 color photographs, lists of the best green vendors, and profiles of leading green designers, this book is a thorough guide for anyone who wants to create beautiful interiors while lessening the waste and pollution generated by the building industry. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.
