George Abraham : Green Thumb Book of Fruit and Vegetable Gardening before purchasing it in order to gauge whether or not it would be worth my time, and all praised Green Thumb Book of Fruit and Vegetable Gardening:

0 of 0 people found the following review helpful. Excellent, Basic, How-to, Reference Gardening BookBy carolynksuThis is an excellent reference for gardening. I have used it for many years and have found it to be accurate. It has everything from pruning grape vines to tomato blight. Photos and/ or sketches are included where necessary. I have given copies to my son and son-in-law who are not gardeners. Both have found it helpful in their first gardening attempts. Its only short coming might be that it is an older book so does not include newer techniques. However it is an excellent basic book.0 of 0 people found the following review helpful. greatBy Donna L. BurkhartEven though its an older book was referred to me by fellow gardener as being very ease to read and accurate
