1 of 1 people found the following review helpful. Great infoBy bettyA lot more information than what is offered on the internet for actually building including really great plans. I'm pretty new to the world of building things so for me it was exactly what I needed.0 of 0 people found the following review helpful. InformativeBy BluePetuniaThis is a very nice book because of pictures information on how to build items. Worth buying esp. if you like seeing pictures of what you can do or build.0 of 0 people found the following review helpful. GreenhousesBy D.Great book pictures.

Advice information for choosing, designing building a greenhouse or potting shed Few outdoor structures are as rich with romance and promise as greenhouses and potting sheds. Inspired gardeners appreciate them for their utility as well as their charm. Even homeowners who are not avid gardeners enjoy the unique ability of these structures to lend a taste of English countryside to any property. Greenhouses Garden Sheds contains hundreds of beautiful photographs featuring the finest examples of these structures. It presents clear choices and design features in a way that inspires as it educates. Readers will find a wealth of information to help lead them through the design and selection process. The book also includes step-by-step photos and instructions for a host of building projects involving and related to greenhouses and potting sheds, including start-to-finish construction of a lovely example of each type.
