Nancy Bubel : Grow the Best Corn (Country Wisdom Bulletins A-68) before purchasing it in order to gage whether or not it would be worth my time, and all praised Grow the Best Corn (Country Wisdom Bulletins A-68):

0 of 0 people found the following review helpful. Good informationBy MICHAEL (from Oregon)Good info for the beginner.1 of 1 people found the following review helpful. Maybe the best for someBy RLSSometimes gardening books are hard for me to consider good when they just don't work for me, primarily because I live in the desert.

Overall, this book gives good information on corn. I like these little booklets and have purchased quite a few of them. Why? Because for the most part, they provide me with new information that I can try and evaluate myself to see if they work for me or not. I recommend you give this book (pamphlet) a try, especially for the price. 2 of 2 people found the following review helpful. Title says it all
By Michael McGourty
This is a great booklet. It covers far more than the average suburban / track home farmer needs, but is also written in a non-technical form so you can follow it. It has proven itself by, my yield went from only one or two small ears of corn last summer to the point now that I share with my pals at work.

Since 1973, Storey's Country Wisdom Bulletins have offered practical, hands-on instructions designed to help readers master dozens of country living skills quickly and easily.
