Chris Collins : Grow Your Own for Kids (Royal Horticultural Society Grow Your Own) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Grow Your Own for Kids (Royal Horticultural Society Grow Your Own):

0 of 0 people found the following review helpful. Great book for the young gardener. By bartlettI bought two of these books for our grandchildren. We garden together in the summer. The book is colorful and informative. I can't wait to use it with them this summer. 0 of 0 people found the following review helpful. Five Stars By L. B. Jackson Great for preschool. 0 of 1 people found the following review helpful. Great gardening book for kids!!! By blabradorI just started a garden last year with my 3 year old daughter. She was very disappointed when not everything gave fruit. I decided that this year would be different. I was looking for a book that would teach us the basics, step by step. This is that book! We love all the photos and the detailed instructions. It also gives you lots of little tips. This book is wonderful! I

highly recommend it. Hope it helps you as much as it has us!

In *Grow Your Own For Kids*, Chris Collins shows how to sow and grow 10 easy vegetables that kids love to eat. Simple step-by-step sequences will guide and inspire them; presenting fun challenges such as growing the tallest sunflower and the largest pumpkin. A "letter to the grown ups" will explain how parents and guardians can provide a garden for their kids, whether this is a container, a window box or a small plot outside. A shopping list, general advice and words of wisdom and encouragement will ensure that nothing goes wrong for those budding green fingers.

About the Author Kew-trained Chris Collins has been the BBC's Blue Peter gardener since 2004. For adults, Chris presented various horticultural interest shows along with presenting strands of the RHS Chelsea and Hampton Court Flower show coverage on BBC since 2008.
