I got my first copy over 15 years ago and continue to use it today. It's been so helpful that I purchased this last copy for my brother who is new to gardening. I think it would be a great reference for any stage of gardener.1 of 1 people found the following review helpful. very good bookBy Shannon KyleI bought this as a gift for my sister-in-law on a recommendation from a friend. They both love it because it's a great all around gardening book in one spot.1 of 1 people found the following review helpful. Planting how toBy Martva P.This book is great: informational and provides lots info of but not too much "how to" detail.

The complete practical guide to kitchen gardening, from planning and planting to care and maintenance.
