0 of 0 people found the following review helpful. Has good information. By Chuck I have had a small garden for several years now. While this book didn't tell me anything I didn't already know, it is still a good purchase for anyone wanting to learn how to grow tomatoes. It is also a nice way to refresh some of the things you already know. All in all, it's a pretty good book with valuable information in it. 0 of 0 people found the following review helpful. Good read. Recommend By Matt Good read. Recommend 0 of 0 people found the following review helpful. Great, and good info. By Thompson Family Can't wait to put all the good info to good use in the spring
