**Geoff Stebbings : Growing Your Own Fruit and Veg For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised Growing Your Own Fruit and Veg For Dummies:

0 of 0 people found the following review helpful. Great GiftBy Jenny J. JohnsonOrdered this for my mom, she loves it.6 of 7 people found the following review helpful. Perfect for Beginning or Proficient GardenersBy Pamela SteeleThis book is brand new, and is a great asset for anyone as a beginning gardener or even proficient, yet wants some great tips and ideas. It has been a huge asset for me. I had gardened in the past, but needed to brush up on my gardening skills. It goes into depth from tilling and preparing your garden spot, to "community gardens", what to plant, and just about anything you need to know on regular and organic gardening. From plants, bugs, soil, ph levels, you name it, this book talks about it. It also gives tips where to look on line for purchasing seeds, and other items for your garden patch.0 of 0 people found the following review helpful. No lemons here!By SHARON KINGI received the book so quickly and it makes all of the "foreign" language of gardening MUCH easier to understand. My dirt will be delivered soon and a very large garden will begin.
