**Theresa J Sours : Guide To Burning Wood For Heat** before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide To Burning Wood For Heat:

0 of 0 people found the following review helpful. Specific details of living with wood heat not available in other booksBy Doug McCartneyThis short book is a roundup of the practical every-day features and complications of living

with wood heating. It has details that I haven't found in other books that are essential for basic knowledge particularly for me as I've lived in Southern CA suburbia for over half of a century. You can read it in an hour. It's about handling the wood, storing wood, buying wood, cleaning the wood burning equipment, disposing of the ashes. It could benefit from a talented editor but that doesn't detract from the value of the information it offers. I enjoyed reading it. 0 of 0 people found the following review helpful. WOW! By Goldi I'm loving for a fireplace it's a great book. Never give up on reading this type of books it is great

A complete and easy to read look at the fundamentals of using a woodstove, fireplace, or wood furnace for heat. Includes: choosing wood, starting a fire, draft control, tools and toys, removing ashes, safety concerns, choosing a stove, chimney guidelines and more.

About the Author Theresa grew up in rural Michigan and earned her Bachelor degree from Kendall College of Art and Design which is now a school within Ferris State University. She has not always been employed in art and uses writing as one of her creative outlets. Theresa's other books include "Shadows From The Fire", "Relentless Past", and "A Vagabond Life". She has written countless others since early childhood and looks forward to the publication of her next book.
