**Nick Price : Guide to Part G of the Building Regulations** before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide to Part G of the Building Regulations:

This is an essential reference handbook to understanding the new and substantially updated 2010 Approved Document G which comes into force in April 2010. It offers the reader professional advice about how to comply with the new requirements for water efficiency, hot water supply, and sanitary conveniences. It is a fully referenced guide which

allows the busy construction professional to grasp the provisions of Part G efficiently and effectively.
