.com This book is a feast for the eyes, featuring homes owned by craftspersons of exceptional talent. Each dwelling is designed and decorated to display its owners' specialty. I have a long way to go if I am ever going to have a home that shows my talents like these do. So in the meantime, I will wander through this book to see what it is like to have a home that is your greatest craftwork. I do have one question though, "Do these people have children?"
