From CRC Press : Handbook of Postharvest Technology: Cereals, Fruits, Vegetables, Tea, and Spices (Books in Soils, Plants, and the Environment) before purchasing it in order to gage whether or not it would be worth my time, and all praised Handbook of Postharvest Technology: Cereals, Fruits, Vegetables, Tea, and Spices (Books in Soils, Plants, and the Environment):

The Handbook of Postharvest Technology presents methods in the manufacture and supply of grains, fruits, vegetables, and spices. It details the physiology, structure, composition, and characteristics of grains and crops. The text covers postharvest technology through processing, handling, drying and milling to storage, packaging, and distribution. Additionally, it examines cooling and preservation techniques used to maintain the quality and the decrease spoilage and withering of agricultural products.

ably compiled and edited by four prominent Food Scientists and Technologists working in premier institutions comprehensive good asset for libraries. editors have done a wonderful job. Journal of Food Science Technology, 2004, Volume 41, No. 1
