As soon as I opened the box, the feel of the book was great --- textured cover and even some raised lettering!! The book felt and looked expensive. However....much to my disappointment, there were few inspiring ideas. I'm afraid the book is full of photos of plants set in all types of containers; pictures of ropes sitting on top of books on top of chairs, chairs with the upholstery missing and springs showing through, old paint brushes. These are not things I consider inspiring; they are not vintage; these are the next step after vintage. So Hans, I'll give you credit for a great cover, quality paper, and good photographs, but a D- on inspiration. So sorry. 4 of 4 people found the following review helpful. Beautiful book. I loved it By kitty kat Beautiful book. I loved it. I gave it 4 stars because there was an animal head, baby alligator and dead bird in it and I can't stand that kind of thing. But the book itself is fabulous and I highly recommend it. I love his style and artistic vision. His first book is wonderful as well. 0 of 0 people found the following review helpful. He explains the creative process, offers up his own treasures, and puts inspiring ideas for beautiful interiors within every readers reach.
