Combining the three Wisley handbooks "Heaths and Heathers", "Dwarf and Slow-Growing Conifers" and "The Winter Garden", this text shows how to use the colours and forms of heathers, conifers and other selected plants to create a garden attractive for all seasons, including winter. Fully descriptive lists of heathers recommended for flower and foliage, and dwarf conifers suitable for all situations provide a number of planting ideas, whilst the winter virtues of many more plants, including shrubs, climbers, trees, perennials and bulbs are explored in detail. The text is complemented throughout by over 130 colour photographs.
