Five StarsBy Fannie PattersonReads like a novel!!! A lot of info pleasantly delivered!!!2 of 2 people found the following review helpful. GardeningBy D. WebbThis a wonderful go to book for any gardener novice or experienced. I highly recommend it. My copy is beautiful and come promptly

New edition of a classic work on Southern heirloom gardening . . .

"Combining world history, abundant horticultural wisdom and two lifetimes of experience, Bill and Greg bring tribute, reverence, and authentic meaning to the term 'heirloom'. When I read the section on German influences I couldn't help but think of my own grandfather of German heritage, a farmer who loved coaxing beauty and bounty from his land in Alamance County, North Carolina. In today's hyper-paced world, we need such gentle reminders of the customs, cultures, and plants that have shaped and contributed to our rich Southern heritage. Thank heaven for Bill Welch and Greg Grant, and for their dedication to Texas and the South."--Patty Leander, contributing writer, Texas Gardener
