Jo Lawrence : Hints and Tips for the Practical Plumber before purchasing it in order to gage whether or not it would be worth my time, and all praised Hints and Tips for the Practical Plumber:

Hints Tips for the Practical Plumber is a unique and essential guide aimed at all plumbing students leaving college and plumbers wanting to set up their own businesses. Due to it's practical advice and supporting pictures, it can also be used by competent DIYers, although nothing replaces the help of a professional tradesperson. For students struggling to complete the NVQ2, Hints Tips has a chapter written specifically on how to use this guide to help you complete the NVQ2 qualification. Based on over 10 years of experience working as a plumber, Jo Lawrence's insights and practical

tips ensure that the transition from college to the real world of plumbing is a pain-free and positive step. Designed to build confidence and help plumbers navigate the often scary realities of setting up on their own, Hints Tips is the must-have handbook for all plumbers. This handbook is suitable for all plumbing students leaving college with or without a formal apprenticeship. It supports those searching for placements to gain the necessary experience, and makes a handy encouragement for anyone who has attempted to go into the plumbing industry in the past but has not managed to get a work placement. "Most plumbing books are written for students training as plumbers, not for plumbers plumbing in the real world. In my experience, many students that train in college can't find someone to take them on to show them the ropes, and so fall back into other jobs. Hints Tips teaches them how to turn their college skills into a thriving business, teaching them what they don't learn in college about how to plumb," Jo comments on the inspiration behind her book.

About the Author Jo Lawrence is a hard-working plumber, entrepreneur and single mother of 2. She started training as a plumber in 2002, and in 2003 was unable to find someone to take her on to achieve her full NVQ 2, so when she split up with her husband at that time, she had to just get out there and do it. She went on to complete her NVQ 2 in 2010 and over the last 10 years she has built Pink Plumbers, and written Hints Tips to help students in a similar position to her, and as a result of being inundated with people's requests for apprenticeships.
