I wasn't thrilled with the interiors, they were nice, but nothing special. The garden section was better. I actually got this book for the garden design section, since most average British gardens are fairly small. We have a small garden have problems finding ideas for what to do with it.

Homefront Inside Out brings together the best designs and ideas from the "Home Front" series. Inside, Laurence transforms the different rooms in your home, while outside, Diarmuid provides ideas for the garden. The boys

combine forces to link what's happening inside with what's happening outside.

From the Publisher
Arranged in two sections Inside and Outside this beautiful book guides you through the process of transforming your home. Inside offers advice on how to find your own style, assess your requirements, and implement changes in your kitchen, bedroom, bathroom, or living room. Laurence Llewelyn-Bowens expert interior design tips and practical advice will help you reinvent even the most uninspiring of spaces. Outside takes you into the garden, with designs and ideas suitable for every space and situation. Whether you're a non-gardening urbanite looking for low-maintenance but stylish solutions or an avid gardener looking to bring changes to your existing garden, designer Diarmuid Gavin will inspire you to step outside and tackle your plot. Both a practical reference book and a source of inspiration, Home Front Inside Out will help you create ideal spaces for the way we live today.
