***** FREE BONUS! Miracles Of Honey ***** Homesteading: Homesteading For Survival - Homesteading Projects For Preppers Many of the myths that surround the prepper community are caused by the prepper television shows. While these are entertaining and do sometimes contain some good hints and tips, it is important to remember that these are just television programs with editing and careful selection. The producers purposely pick the people who would be deemed the most extreme or perhaps the nuttiest because they are the ones that make good television. The real preppers are the ones that are not doing stunts for TV. They are the ones with the right mindset and mental attitude and they are doing these things quietly for their families, not parading their choices for everyone to see. Homesteading and/or prepping takes a lot of hard work and dedication but it is very rewarding to know that you are not only becoming more and more self-reliant but that you can also have fun and be a little creative at times as well. This is not all about gloom and doom, after all. These projects are easy enough for most people to handle and will help expand your range of skills in the process. In this book, you will find a collection of my favorite DIY homesteading projects with step-by-step instructions. Enjoy!
