Lisa Cregan, House Beautiful : House Beautiful Style 101: 400 Designer Secrets to a Beautiful Home before purchasing it in order to gage whether or not it would be worth my time, and all praised House Beautiful Style 101: 400 Designer Secrets to a Beautiful Home:

Also there wasn't anything really great about the decor. Many of the images I've already seen online. The designers commentary was just Ok, kinda fell short of anything very interesting or fresh.It's an older book so I guess it's expected not to be up to date on current trends. I only paid \$3.00 for it so not really a loss just disappointing because I was hoping to find some goodies in there.0 of 0

BellThere were some good ideas presented, but nothing spectacular. Will be a useful addition to my library, but could have done without.
